March 6, 2020

Dear COTN Partner,

You will have noticed recent headlines regarding the spread of the Coronavirus in several countries. The USA State Department and Center for Disease Control (https://wwwnc.cdc.gov/travel) have been monitoring the situation closely and they are the best source of information on this topic. Children of the Nations is aware and monitoring the situation in all five of the countries where we work as well as the travel routes to those countries.

What we currently know is that there has been one report of the Coronavirus in Dominican Republic. According to the CDC there have been no reported cases in Haiti, Malawi, Sierra Leone and Uganda as of March 6, 2020. This is a dynamic situation, and as it unfolds, we are reviewing updates daily to make sure we respond quickly to changes potentially impacting our children, staff or partners.

COTN is also monitoring the spread of the virus in the United States in order to protect our staff and the children in our countries during COTN related travel. We register all participants traveling with COTN with embassies and we offer robust traveler’s insurance coverage for each traveler. If you have further questions or concerns, please feel free to call COTN at 360-698-7227 and ask to speak to someone in the Venture Department or reach out to your team leader for additional information.

Sincerely,

Chris Clark

Children of the Nations Founder
